Requirement-aware multi-lift dispatch: restricted waiting and accessibility trade-offs

Alan Immanuel Benjamin Vallavaraj[a,*]

[a]*School of Computer Science and Engineering, University of Westminster, 115 New Cavendish Street, London, W1W 6UW, United Kingdom*

Author contributions (CRediT)

Alan Immanuel Benjamin Vallavaraj: Conceptualization, Methodology, Software, Validation, Formal analysis, Investigation, Data curation, Writing – original draft, Writing – review & editing, Visualization, Project administration.

Funding

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Declaration of competing interests

The author declares no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

Data and code availability

All code, data and reproduction instructions are archived on Zenodo at https://doi.org/10.5281/zenodo.23288500 and mirrored at https://github.com/alanvallavaraj/HumanAwareLiftAI. Code is released under the MIT licence and data under the Creative Commons Attribution 4.0 licence. In the anonymised manuscript, this record is cited as the withheld dataset reference.
